ABOUT LMCP

The L. M. College of Pharmacy is one of the premier pharmacy institute of India. The college was established in 1947 with a vision to impart quality pharmacy education. It is successfully run by Ahmedabad Education Society for more than 70 years.

The college is affiliated to Gujarat Technological University since 2008. At present the college offers D.Pharm, B.Pharm, M.Pharm, Pharm.D and Ph.D. programs. The college is approved by All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI). The College was also awarded "A" grade by NAAC. With the support of highly qualified and experienced faculty members, the college has been nurturing the society with great number of industrialists, academicians and students who are successful in India as well as abroad.

L. M. College of Pharmacy is the only pharmacy college in the country to get financial assistance from NITI Aayog's Atal Innovation Mission to set up the Atal Incubation Centre (AIC-LMCP Foundation). LMCP is also the grantee nodal center for student start-up and innovation policy (SSIP) of government of Gujarat.

PROGRAM OBJECTIVE

Teaching fraternity is the back-bone of a higher education system and it becomes imperative for a teacher to upgrade his/her knowledge and competencies on continuous basis. Accreditation is an incredibly important facet of any Higher Education Institution which is a voluntary evaluation process that institute should undergo in order to maintain standards of educational quality. Accrediting bodies like NBA, NAAC etc. have introduced a new process, parameters and criteria for accreditation which increasingly make it mandatory for all teaching programs to implement Outcome Based Education (OBE). Our present teaching learning processes are geared towards old Input-based model rather than new Outcomes-based model. There is an urgent need of changing our instructional methods for effective delivery of OBE. Main objective of this one week faculty development program in "Excellence through Outcome Based Education in Pharmacy" is to educate the young as well as senior faculty members on how to reorient their teaching learning processes to implement Outcome Based Education (OBE).

KEY TOPICS:

- Concepts of OBE and correlating POs, PSOs and COs
- Framing of POs, PSOs and COs
- Teaching Methods in OBE
- Assessment tools in OBE
- Integrating ICT in teaching
- Planning and organizing innovative lab work
- Importance of professional ethics, social and attitudinal skills
- Instructional material design and development.
